COMPANY PROFILE

BIG ON QUALITY, BIGGER ON RESULTS.

OUR BUSINESS AREAS
Real Estate • Construction

Main Office
9 Miles, Zambeauty, along Great North Road, Zambia

Prepared for clients, tender opportunities, investors and strategic partners

1. Company Overview

Big Jagger Group of Companies is a diversified business operating across real estate, land transactions, collateral-based financing and construction. The company aims to provide practical, transparent and professional services to individuals, businesses, property owners, investors and other stakeholders.

Our business approach focuses on understanding client needs, identifying opportunities and building lasting relationships based on integrity, quality and accountability. We aim to create value through responsible property transactions, clear financing arrangements and construction-related services aligned with client requirements.

2. Vision

To become a trusted and recognised business group in Zambia, known for quality service, responsible business practices and results across property, financing and construction.

3. Mission

To deliver reliable, transparent and client-focused business solutions that support property ownership, investment, access to financing and development, while building long-term relationships with clients and partners.

4. Core Values

- **Integrity:** Conducting business honestly and ethically.
- **Quality:** Striving for high standards in service delivery and workmanship.
- **Transparency:** Communicating terms, processes and expectations clearly.
- **Accountability:** Taking responsibility for commitments and decisions.
- **Customer focus:** Working to understand and respond to client needs.
- **Results:** Focusing on practical outcomes and lasting value.

5. Our Services

Real Estate

We support property-related opportunities by connecting buyers, sellers, owners and investors. Depending on the engagement, services may include property marketing, assistance with acquisitions and sales, identifying suitable residential or commercial properties, and general property investment support.

Buying and Selling of Land

We facilitate land transactions and help clients explore land acquisition and investment opportunities. We emphasise clear communication, appropriate ownership and title checks, and careful documentation as part of the transaction process.

Construction

Our construction focus includes building and property development opportunities, residential and commercial projects, renovations and improvements, and construction coordination according to the scope agreed with the client. Projects are to be undertaken in line with relevant approvals, safety requirements and applicable standards.

6. Working with Clients and Partners

Big Jagger Group of Companies welcomes opportunities to work with individual clients, property owners, land buyers and sellers, businesses, suppliers, institutions, investors and strategic partners. We aim to establish clear scopes of work, realistic expectations, appropriate documentation and professional communication throughout each engagement.

7. Tender and Contract Opportunities

The company is interested in suitable business opportunities, supplier relationships, tenders and contracts aligned with its service areas and demonstrated capacity. For tender submissions, the company should attach the specific documents requested by the procuring entity, such as current registration documents, tax compliance evidence, relevant licences, financial information, references and project experience, where applicable.

8. Investment and Partnership Opportunities

We are open to exploring commercially sound investment and partnership opportunities in property, land, construction and related services. Potential arrangements should be evaluated on their merits, with clear roles, transparent financial terms, appropriate due diligence and written agreements. No investment return is guaranteed; all proposals should be assessed against the relevant risks and available information.

9. Quality, Compliance and Responsible Business

We aim to conduct business in a professional and responsible manner. Property and land transactions should be supported by appropriate verification and documentation. Lending activities should comply with applicable Zambian laws and regulatory requirements. Construction projects should obtain required approvals and use suitable safety and quality practices. Specific licences, registrations and certifications should be listed only where they have been obtained and remain valid.

10. Why Work with Big Jagger Group of Companies?

- **Diversified services:** A business presence across four connected sectors.
- **Client-focused approach:** Solutions shaped around the scope and needs of each client.
- **Commitment to quality:** A standard reflected in our company slogan.
- **Professional relationships:** Clear communication and documented expectations.
- **Partnership mindset:** Openness to appropriate collaboration and commercially sound opportunities.
- **Focus on results:** An emphasis on practical delivery, accountability and value.
